

## Human Body Systems Chart

System	Diagram	Structures	Functions	Interactions
<p>Digestive</p>				<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/muscular</li> <li>3. w/nervous</li> <li>4. w/</li> </ol>
<p>Respiratory</p>				<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/excretory</li> <li>3. w/muscular</li> <li>4. w/</li> </ol>
<p>Skeletal</p>				<ol style="list-style-type: none"> <li>1. w/muscular</li> <li>2. w/circulatory</li> <li>3. provides protection for:</li> <li>4. w/</li> </ol>

<p>Reproductive</p>	 <p>A diagram showing a fetus in the womb. A label 'Placenta' points to the organ attached to the fetus, which is connected to the mother's uterus. The diagram illustrates the umbilical cord and the internal organs of the fetus.</p>		<ol style="list-style-type: none"> <li>1. w/endocrine</li> <li>2. w/muscular</li> <li>3. w/circulatory</li> <li>4. w/</li> </ol>
<p>Muscular</p>	 <p>An anatomical illustration of a male bodybuilder, showing the muscular system. The muscles are highlighted in red, and the diagram is set against a background of horizontal lines, suggesting a height measurement chart.</p>		<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/digestive</li> <li>3. w/respiratory</li> <li>4. w/</li> </ol>
<p>Lymphatic</p>	 <p>A diagram of the human lymphatic system. The lymphatic vessels are shown in green, branching throughout the body. Two labels, 'Ax' and 'Inç', point to specific parts of the system. 'Ax' points to the axillary lymph nodes, and 'Inç' points to the inguinal lymph nodes.</p>		<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/immune</li> <li>3. w/skeletal</li> <li>4. w/</li> </ol>

<p>Nervous</p>	 <p>Diagram of the human nervous system. Labels include: Centr (Central Nervous System), Brain, Spina (Spinal Cord), and System (Peripheral Nervous System).</p>		<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/respiratory</li> <li>3. w/ endocrine</li> <li>4. w/</li> </ol>
<p>Integumentary</p>	 <p>Diagram of a cross-section of the skin. Labels include: Melanocyte, Blood vessels, Follicle, Oil gland, and Sweat gland.</p>		<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/nervous</li> <li>3. w/immune</li> <li>4. w/</li> </ol>
<p>Circulatory</p>	 <p>Diagram of the human circulatory system showing the heart and the network of arteries and veins.</p>		<ol style="list-style-type: none"> <li>1. w/respiratory</li> <li>2. w/digestive</li> <li>3. w/endocrine</li> <li>4. w/</li> </ol>

<p>Immune</p>	 <p>A white blood cell</p>			<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/skeletal</li> <li>3. w/integumentary</li> <li>4. w/</li> </ol>
<p>Excretory</p>				<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/respiratory</li> <li>3. w/integumentary</li> <li>4. w/</li> </ol>
<p>Endocrine</p>	<p><b>Major Endocrine Glands</b> Male Female</p> 			<ol style="list-style-type: none"> <li>1. w/circulatory</li> <li>2. w/reproductive</li> <li>3. w/ skeletal</li> <li>4. w/</li> </ol>
